

WEBVTT

1

00:00:05.510 --> 00:00:12.720

Douglas "Duke" Tremitiere: Good evening, everyone. This is Duke Tremontier on the line chair of the

2

00:00:12.870 --> 00:00:23.210

Douglas "Duke" Tremitiere: Jhpd. Police Accountability Board Policy Review Committee. I'd like to bring this committee meeting to order.

3

00:00:24.660 --> 00:00:34.850

Douglas "Duke" Tremitiere: I'm just looking online to see who is here. I see myself.

4

00:00:36.890 --> 00:00:38.970

Douglas "Duke" Tremitiere: April, Dr. Madhu.

5

00:00:39.638 --> 00:00:45.870

Douglas "Duke" Tremitiere: Laura, and Calvin, is there anyone else online? Just so we have a record of who attended the meeting.

6

00:00:48.530 --> 00:00:50.189

Aprille Weron: I don't see anyone else online.

7

00:00:50.970 --> 00:00:53.539

Douglas "Duke" Tremitiere: Okay, no. I thought I heard Jarrell earlier.

8

00:00:56.370 --> 00:00:57.400

Douglas "Duke" Tremitiere: Okay.

9

00:00:57.400 --> 00:00:58.189

Aprille Weron: I don't see how.

10

00:00:59.154 --> 00:01:02.250

Douglas "Duke" Tremitiere: And he may join us because he we were

11

00:01:02.370 --> 00:01:06.250

Douglas "Duke" Tremitiere: texting back and forth about some of the issues in the meeting earlier today.

12

00:01:06.630 --> 00:01:07.729

Douglas "Duke" Tremitiere: Alright, so.

13

00:01:08.480 --> 00:01:21.935

Douglas "Duke" Tremitiere: thank you all for attending. As you know, this is probably obviously going to be my last meeting as committee chair also for Dr. Madhu, we will both be

14

00:01:23.050 --> 00:01:27.250

Douglas "Duke" Tremitiere: stepping down off of the pab in the coming months.

15

00:01:27.880 --> 00:01:32.493

Douglas "Duke" Tremitiere: so I put together a little agenda.

16

00:01:33.350 --> 00:01:41.579

Douglas "Duke" Tremitiere: They were well, 2 or 3 particular items I wanted to talk about today. Policy. Wise

17

00:01:42.338 --> 00:01:55.280

Douglas "Duke" Tremitiere: dealing with our frequently asked questions. Sheet, I think, is important, because if we have more meetings coming up with the public, it's important that they have those answers, and we don't have to keep reviewing the same issues over and over.

18

00:01:57.370 --> 00:02:15.352

Douglas "Duke" Tremitiere: I'm not yet sure where we're going to be able, or where is the best place to put those FAQs online? That's something to be to discuss and then, very specifically updating the facts. I think, is important for the 2 items that I forwarded around to everyone.

19

00:02:16.120 --> 00:02:34.630

Douglas "Duke" Tremitiere: item, one is the jurisdictional boundaries issues to make sure that is clear for everyone. And trying to get those maps updated on a regular basis, how how best to approach that. And then the second one is just language which is already in, I think, very clearly in the

20

00:02:34.780 --> 00:02:43.200

Douglas "Duke" Tremitiere: the the the finalized policies about protests and demonstrations.

21

00:02:43.780 --> 00:02:50.400

Douglas "Duke" Tremitiere: And how the Jhpd will handle protests and demonstrations. But I think that's important to include in the facts if we can

22

00:02:53.100 --> 00:02:58.505

Douglas "Duke" Tremitiere: and then just some, some housekeeping issues.

23

00:02:59.800 --> 00:03:05.210

Douglas "Duke" Tremitiere: how how to turn over the the work of the committee. Now that I'm going to be stepping down.

24

00:03:05.638 --> 00:03:09.860

Douglas "Duke" Tremitiere: I don't know if there's anything else that anyone has that they wanna also discuss this evening.

25

00:03:13.390 --> 00:03:14.850

Aprille Weron: I think that sounds good.

26

00:03:15.520 --> 00:03:17.110

Douglas "Duke" Tremitiere: Okay. Now, if there's something

27

00:03:18.500 --> 00:03:27.240

Douglas "Duke" Tremitiere: else. Okay? So I got a couple of comments back from folks who looked over the new proposed language. In the meantime I did have a conversation with Calvin.

28

00:03:27.833 --> 00:03:38.949

Douglas "Duke" Tremitiere: Starting off with the new facts language on the jurisdictional boundaries issues I just sent around to folks the mock up of a new version of the maps that

29

00:03:39.420 --> 00:03:47.459

Douglas "Duke" Tremitiere: that was sent out by Calvin to me, and I sent it out to folks. If you see in your in your Whatsapp or in your text messages, you'll see that.

30

00:03:49.910 --> 00:03:53.660

Douglas "Duke" Tremitiere: Oh, I just saw Jarrell chimed in. Hi, good evening, Jarrell.

31

00:03:56.010 --> 00:03:57.639

Jerrell Bratcher: Hey? This is Drew! Here.

32

00:03:57.840 --> 00:04:03.809

Douglas "Duke" Tremitiere: Hi, good good evening, Joe. We're just. We're just now starting the meeting with the 1st agenda items.

33

00:04:04.090 --> 00:04:06.759

Douglas "Duke" Tremitiere: So we're talking about

34

00:04:07.390 --> 00:04:15.759

Douglas "Duke" Tremitiere: jurisdictional boundaries, and how to address that in the facts sheet to update it. So I propose new language.

35

00:04:16.291 --> 00:04:32.859

Douglas "Duke" Tremitiere: Unfortunately, I did have a long conversation with Calvin about the maps, and I think even the language that I proposed is going to be updated again. But I don't know if anyone had Strong had strong feelings about any of the the new proposed language that was already circulated.

36

00:04:38.539 --> 00:04:45.150

Aprille Weron: You're talking about the the FAQ, one page or final document.

37

00:04:45.490 --> 00:04:46.650

Douglas "Duke" Tremitiere: Right, but another.

38

00:04:46.650 --> 00:04:49.849

Aprille Weron: Oh, the proposed updates, that's when we're looking. Okay. Yeah.

39

00:04:49.850 --> 00:04:51.409

Douglas "Duke" Tremitiere: Right? So

40

00:04:53.080 --> 00:05:11.480

Douglas "Duke" Tremitiere: yeah, basically, my feeling was that each time we go to these community meetings other than the deployment schedule, the one issue that seems to come up consistently on all 3 campuses is what are the jurisdictional boundaries, and how will the jurisdictional boundaries be applied? So I think that's important for us to include that as

41

00:05:12.110 --> 00:05:20.369

Douglas "Duke" Tremitiere: clear as we can in the facts that will make, you know, meetings with the community goes more smoothly if that information is already circulated.

42

00:05:20.520 --> 00:05:40.669

Douglas "Duke" Tremitiere: and I think it's a complicated issue, because in order to understand the jurisdictional boundaries, you need to

understand the maps, you need to understand the Mou with the Bpd. And to some extent you even need a little bit of background of what's in the Cssa. So that's a lot to ask an average community member to do

43

00:05:41.040 --> 00:06:00.510

Douglas "Duke" Tremitiere: so. I think it's incumbent upon us to try to narrow it down to one quick paragraph if we can. That will explain it in the clearest language possible, and it's still going to be ambiguous, I'm afraid. To some extent. People, if people are interested are going to have to go back and look at those documents, but to be as clear as we can in a paragraph or 2.

44

00:06:01.205 --> 00:06:04.300

Douglas "Duke" Tremitiere: Initially, we talked about making that

45

00:06:04.430 --> 00:06:10.610

Douglas "Duke" Tremitiere: facts. One page. But it's no way it can be one page we're adding these additional issues. Just can't be. And I think that's fine.

46

00:06:10.750 --> 00:06:15.089

Douglas "Duke" Tremitiere: It has to be more than one page. It can be more than one page to be as clear as possible.

47

00:06:17.590 --> 00:06:18.260

Aprille Weron: Yeah.

48

00:06:18.360 --> 00:06:26.690

Aprille Weron: And even with these proposed maps, like having the properties outside of the jurisdiction highlighted

49

00:06:26.860 --> 00:06:32.180

Aprille Weron: are still gonna confuse people like it's just confusing.

50

00:06:33.010 --> 00:06:37.460

Jerrell Bratcher: Are we talking about the new maps or the old maps just.

51

00:06:37.460 --> 00:06:44.309

Douglas "Duke" Tremitiere: Well, I'm talking about. Well, the the map I sent around now is the one that it's a mock up of a new map

52

00:06:44.490 --> 00:06:50.710

Douglas "Duke" Tremitiere: of a new version of the new maps, and I think, I think that.

53

00:06:50.710 --> 00:06:52.979

Jerrell Bratcher: And it cut out there a little bit. Do you.

54

00:06:53.200 --> 00:06:58.109

Douglas "Duke" Tremittiere: So sorry. I wonder which which network I'm on, am I? Are you folks hearing me clearly.

55

00:06:59.560 --> 00:07:00.580

Aprille Weron: Yes, now.

56

00:07:00.580 --> 00:07:06.089

Douglas "Duke" Tremittiere: Oh, okay, yeah, I have 2 networks, and one is more clear than the other. So

57

00:07:06.360 --> 00:07:12.029

Douglas "Duke" Tremittiere: the newer maps still have, I understand, not been uploaded yet onto the website.

58

00:07:12.560 --> 00:07:21.814

Douglas "Duke" Tremittiere: And in the meantime, I think they're being looked at again to be reviewed again, and and the one I just shared with everybody on

59

00:07:22.280 --> 00:07:34.710

Douglas "Duke" Tremittiere: on Whatsapp or on SMS is a mock up of the latest version of the map for the Peabody campus, and the reason that it's important is because when I discussed this with Calvin.

60

00:07:35.580 --> 00:07:44.229

Douglas "Duke" Tremittiere: he clarified something for me that I wasn't totally clear upon, and that is that if you look at the Peabody campus that map I just sent out.

61

00:07:44.740 --> 00:07:53.490

Douglas "Duke" Tremittiere: You have a very big square that goes around the entire campus area. That means the campus area as it was defined in the Cssa.

62

00:07:53.950 --> 00:07:57.300

Douglas "Duke" Tremittiere: So, and within that you see

63

00:07:57.490 --> 00:08:04.570

Douglas "Duke" Tremittiere: 5, 6, 7 buildings that are in blue and they are Jhpd property.

64

00:08:05.560 --> 00:08:16.220

Douglas "Duke" Tremittiere: You see another building, a large block which is outside of Jhpd property, which is Jhpd property. But outside of the quote unquote campus area.

65

00:08:16.700 --> 00:08:36.029

Douglas "Duke" Tremittiere: So you're right. It is a little confusing. But what I think is important about this map is that you see the dotted line, and that is the campus area as defined in Cssa, and that is where the Jhpd will patrol. That's what I understand now. My understanding previously was that Jhpd. Would only patrol their own property.

66

00:08:36.200 --> 00:08:39.909

Douglas "Duke" Tremittiere: But apparently that's not from what I hear from Calvin now. So that is.

67

00:08:40.700 --> 00:08:56.200

Douglas "Duke" Tremittiere: they will patrol that entire area inside the dotted lines. However, they will serve as 1st responders, meaning that the 911 calls in from any of their own properties. That's the ones in blue. They will be the 1st responders.

68

00:08:56.670 --> 00:09:05.620

Douglas "Duke" Tremittiere: If it's a non blue area inside the dotted line, the 1st responders from a 9 1 1 call would still be the Bpd

69

00:09:06.010 --> 00:09:07.959

Douglas "Duke" Tremittiere: Cal, when I see you're online. Is that

70

00:09:08.550 --> 00:09:12.080

Douglas "Duke" Tremittiere: my? Is my explanation correct? As far as you know.

71

00:09:18.110 --> 00:09:20.070

Calvin Smith: Again. I want to clarify.

72

00:09:20.390 --> 00:09:21.030

Douglas "Duke" Tremittiere: Okay.

73

00:09:22.740 --> 00:09:26.440

Calvin Smith: For property owned, leased, or controlled

74

00:09:26.730 --> 00:09:30.869

Calvin Smith: in that area. Yes, we serve as 1st responder. However.

75

00:09:31.100 --> 00:09:49.170

Calvin Smith: if there's a issue, if someone is outside, and and there's 9, 1 1 call, and there's an accident on one of those streets that fall within the dotted line within the boundaries that are defined by the Cssa, Jhpd.

76

00:09:49.340 --> 00:09:51.269

Calvin Smith: Be dispatched to respond.

77

00:09:51.740 --> 00:09:56.740

Calvin Smith: We will not go to private residence, I think that's where that's the distinction I want to make.

78

00:09:57.270 --> 00:09:59.659

Calvin Smith: So if you're in a private residence.

79

00:09:59.890 --> 00:10:09.600

Calvin Smith: we will not. That's that's not how that'll go own leased or control. That's where we're going from a from a building perspective.

80

00:10:10.540 --> 00:10:14.040

Calvin Smith: But if there's an incident that's in that area that's happening

81

00:10:14.570 --> 00:10:22.819

Calvin Smith: related to outside on the streets and we're patrolling, we we very likely will respond to the things that are happening in that area, but not to a private residence

82

00:10:24.200 --> 00:10:25.410

Calvin Smith: that make sense.

83

00:10:28.570 --> 00:10:37.090

Douglas "Duke" Tremitiere: It makes sense. But can you, then, Calvin, could you clarify, then what is the adjacent property within one block?

84

00:10:37.300 --> 00:10:39.409

Douglas "Duke" Tremitiere: How does that apply to what you just said.

85

00:10:41.930 --> 00:10:43.929

Calvin Smith: I'm sorry. Say that again.

86

00:10:46.180 --> 00:10:56.980

Douglas "Duke" Tremittiere: So you know that the understanding is now that Jhpd has jurisdiction around its properties, or controlled or own

87

00:10:57.490 --> 00:11:03.849

Douglas "Duke" Tremittiere: adjacent within one block. So how does that distinction apply to what you just said?

88

00:11:04.710 --> 00:11:13.140

Calvin Smith: So that means if there's something happening on the sidewalk across the street from our from the line. So right, if

89

00:11:13.390 --> 00:11:24.510

Calvin Smith: if Saint Paul street is the eastern boundary. That line isn't the middle of Saint Paul Street, and it stops. It's to the sidewalk on the other side of the street.

90

00:11:27.190 --> 00:11:27.960

Douglas "Duke" Tremittiere: Okay.

91

00:11:28.230 --> 00:11:28.770

Douglas "Duke" Tremittiere: Then.

92

00:11:28.770 --> 00:11:29.950

Calvin Smith: Does that make sense.

93

00:11:30.270 --> 00:11:36.259

Douglas "Duke" Tremittiere: Yeah, that makes sense. Thank you. But that is, that's for the Cssa defined area.

94

00:11:36.260 --> 00:11:36.950

Calvin Smith: Correct.

95

00:11:36.950 --> 00:11:42.779

Douglas "Duke" Tremittiere: May or may not be adjacent, or one block to a building that you own or control. Jason.

96

00:11:42.780 --> 00:11:43.270

Calvin Smith: Right.

97

00:11:43.270 --> 00:11:43.730

Douglas "Duke" Tremittiere: Rows.

98

00:11:43.730 --> 00:11:44.050

Calvin Smith: So right.

99

00:11:44.050 --> 00:11:47.260

Douglas "Duke" Tremittiere: Is for the entire Ssa defined area. Okay?

100

00:11:47.410 --> 00:12:03.949

Calvin Smith: So. In other words, if if if Hopkins expanded or bought property that was beyond the boundaries of the Cssa that does not automatically extend J. Choose boundaries per the Cssa. That's not what that means.

101

00:12:04.940 --> 00:12:18.059

Douglas "Duke" Tremittiere: Correct, and, in fact, that was the next point, and and April brought it up to a controlled or owned Jh. Property outside of the Cssa boundary. You can see it on the map I circulated

102

00:12:18.460 --> 00:12:19.800

Douglas "Duke" Tremittiere: this afternoon.

103

00:12:20.170 --> 00:12:28.830

Douglas "Duke" Tremittiere: You can see the big blue block outside of the dotted line area. That is a new apartment complex recently acquired by Hopkins.

104

00:12:29.000 --> 00:12:34.000

Douglas "Duke" Tremittiere: So now the question is, and I, and based on what

105

00:12:34.530 --> 00:12:41.799

Douglas "Duke" Tremittiere: my latest understanding is, that entire apartment complex remains under the jurisdiction of the Bpd.

106

00:12:47.170 --> 00:12:56.850

Calvin Smith: The property is literally on the sidewalk, on the others on the side of the street. But can we patrol on the other side that is outside of the boundary.

107

00:12:57.430 --> 00:13:00.230

Calvin Smith: but the building itself is on the line.

108

00:13:01.180 --> 00:13:03.510

Douglas "Duke" Tremittiere: Correct, but in terms of.

109

00:13:05.460 --> 00:13:08.369

Calvin Smith: So we will, we would, we would respond there. In other words.

110

00:13:10.840 --> 00:13:11.550

Douglas "Duke" Tremittiere: Okay.

111

00:13:12.790 --> 00:13:17.489

Laura Rossi: So you'll. I'm so sorry it's it's Laura. So you'll so jhpd.

112

00:13:17.490 --> 00:13:28.160

Calvin Smith: But but I but I but I we're getting very, very technical, and and I I think, for for the purposes of this conversation, I want to make sure, because

113

00:13:29.260 --> 00:13:38.159

Calvin Smith: I wanna make sure that we are very clear. And we are we. We can sit down together and and look this through and be in person and like, really, look at the maps.

114

00:13:40.470 --> 00:13:44.420

Douglas "Duke" Tremittiere: That understood. Yeah. Go ahead, Laura. You were. Gonna ask something.

115

00:13:47.110 --> 00:13:57.380

Laura Rossi: This might be a question to be determined. So I guess what what my question was gonna be was that for the for the Waterloo. Then it sounds like

116

00:13:59.380 --> 00:14:04.819

Laura Rossi: Jhpd. Will respond, but won't necessarily patrol the entire

117

00:14:07.380 --> 00:14:11.980

Laura Rossi: portion of the building that's not adjacent to the boundary.

118

00:14:13.530 --> 00:14:15.479

Calvin Smith: Can't patrol that.

119

00:14:16.090 --> 00:14:19.970

Calvin Smith: So the again, I want to make sure I'm clear

120

00:14:20.360 --> 00:14:35.870

Calvin Smith: property that expands beyond the cssa. That property sits on the line. The front door sits on the line. If something were to happen, and there was a call to that building. Jhpd and public Safety would respond

121

00:14:36.310 --> 00:14:39.870

Calvin Smith: to the building, it would be within our jurisdiction.

122

00:14:40.890 --> 00:14:41.660

Calvin Smith: But

123

00:14:42.400 --> 00:14:51.750

Calvin Smith: the entirety of the building is not within the line. So if we went over another block and acquired another building, we would not have that building at all.

124

00:14:52.990 --> 00:14:54.290

Calvin Smith: Does that make sense.

125

00:14:55.610 --> 00:15:22.370

Douglas "Duke" Tremitiere: Yeah, that's relatively clear. Yeah, so and I and I do apologize if it's getting a little technical. But I do think, like I said, we need to try to put this in bullet points as best we can to put on that facts, because if we have questions as well as we know this issue. Imagine community members, and I feel like that's part of our responsibility to try and win the wheedle. This down to be as clear as we can for them. But

126

00:15:23.610 --> 00:15:28.670

Douglas "Duke" Tremitiere: And it's so. I'm just trying to get as deep as understand as I can, so cause I'm going to go back, and

127

00:15:29.130 --> 00:15:40.307

Douglas "Duke" Tremitiere: with the help of the other folks on the committee, try to clarify that language, and then, of course, Kevin will send it off to you folks to see. Make sure that it's as clear as you think it should be.

128

00:15:41.330 --> 00:15:49.100

Douglas "Duke" Tremittiere: and being SIM being, it shouldn't be, too, as you said, too technical. But I think for our purposes we need to have a technical knowledge so that we can.

129

00:15:49.360 --> 00:15:54.449

Douglas "Duke" Tremittiere: We can pare it down to be as clear as possible without being incorrect.

130

00:15:57.560 --> 00:16:08.280

Douglas "Duke" Tremittiere: so and and Calvin, I have a sidebar question, so that recent acquisition outside of the Peabody campus defined campus area

131

00:16:08.570 --> 00:16:16.560

Douglas "Duke" Tremittiere: that never happened here in Peabody before. But is that so? That's just one building. But is that common on the other campuses? Do you have an idea.

132

00:16:19.220 --> 00:16:20.649

Calvin Smith: I can't speak to that.

133

00:16:20.910 --> 00:16:29.279

Douglas "Duke" Tremittiere: Okay, I'm just curious. Okay. Cause if you know, if it's very uncommon, there's really no sense in even raising it, really. But if it happens all the time. It's worth raising.

134

00:16:30.710 --> 00:16:33.350

Douglas "Duke" Tremittiere: Okay, so

135

00:16:37.000 --> 00:16:49.570

Douglas "Duke" Tremittiere: that's where we stand. And I and I apologize because, based on on this latest conversation with Calvin. I need to even rework that language that I that I sent around Laura. I know that you had already made a change. Did you want to comment on the change you made.

136

00:16:51.217 --> 00:16:58.702

Laura Rossi: I think they were. I boot. I can't even remember I'm so sorry. I think they were minor changes. I don't think that they were anything substantial.

137

00:16:58.980 --> 00:16:59.640

Douglas "Duke" Tremittiere: Okay.

138

00:17:01.800 --> 00:17:06.560

Douglas "Duke" Tremitiere: Okay. Then the other piece of this is that I

139

00:17:06.980 --> 00:17:15.319

Douglas "Duke" Tremitiere: I I do feel strongly that because this issue comes up often enough. I think that it is incumbent upon Hopkins to

140

00:17:16.630 --> 00:17:22.270

Douglas "Duke" Tremitiere: update the latest versions of the map regularly.

141

00:17:22.420 --> 00:17:29.540

Douglas "Duke" Tremitiere: and I don't know how regularly my guess is quarterly or Biannually is really appropriate, and I know.

142

00:17:29.800 --> 00:17:44.089

Douglas "Duke" Tremitiere: from having spoken to several of you folks, I think that there's some agreement about that, and I know that it's complicated because the maps change as Hopkins acquires and moves, and they probably have to go through several offices for clearance, and so on and so forth.

143

00:17:44.290 --> 00:17:48.859

Douglas "Duke" Tremitiere: However, I do feel strongly that Hopkins needs to

144

00:17:48.980 --> 00:17:53.010

Douglas "Duke" Tremitiere: as well. I mean Hopkins can do what it wants, but I think we, as a board

145

00:17:53.710 --> 00:18:00.920

Douglas "Duke" Tremitiere: represented by this committee, and I'm willing to do it should draft a letter to public safety, and Hopkins

146

00:18:01.640 --> 00:18:10.930

Douglas "Duke" Tremitiere: suggesting advocating, requesting that the community be informed on a regular basis by uploading those maps

147

00:18:11.390 --> 00:18:14.979

Douglas "Duke" Tremitiere: on a regular basis, whether it's quarterly or Biannually, but that

148

00:18:15.100 --> 00:18:22.659

Douglas "Duke" Tremittiere: it's our suggestion that Hopkins commits to doing it, even if there's no update, they say. Yes, these were last reviewed on, you know, the 30th of

149

00:18:23.560 --> 00:18:29.390

Douglas "Duke" Tremittiere: July and or 30th of June, and they will be reviewed again the 30th of December, just so that everyone has.

150

00:18:29.820 --> 00:18:36.628

Douglas "Duke" Tremittiere: Everyone has the latest information possible about where the boundaries are.

151

00:18:38.740 --> 00:18:46.540

Calvin Smith: Luke, I want to make sure. I say this clearly, boundaries are not changing.

152

00:18:47.640 --> 00:18:56.310

Calvin Smith: Even if we acquire different property, and the maps change because we acquire different things, or we sell something, or we trade like

153

00:18:56.820 --> 00:18:59.490

Calvin Smith: the the actual boundaries

154

00:19:00.070 --> 00:19:05.770

Calvin Smith: are stated by statute how they can change, so I don't want to confuse that language.

155

00:19:05.970 --> 00:19:21.750

Douglas "Duke" Tremittiere: Okay, okay, understood? Yeah, yeah, we. And we mentioned that the other day and sorry if I'm still a little bit off. So you're correct. So you mentioned that to me the other day. So the Cssa boundaries, which are the campus area, they will not change, and that is where the controls will be.

156

00:19:24.330 --> 00:19:24.710

Calvin Smith: Correct.

157

00:19:24.710 --> 00:19:39.339

Douglas "Duke" Tremittiere: Within those correct. Okay? Okay? Then, yeah. Then, the most important thing which wasn't true on the old maps is that the Cssa defined areas be clearly outlined, because on some of the old maps it only showed

158

00:19:39.620 --> 00:19:41.060

Douglas "Duke" Tremittiere: clearly the

159

00:19:41.370 --> 00:19:52.839

Douglas "Duke" Tremittiere: the Jhpd owned or controlled properties. And I. So we talked about that, and then on this and on this latest mock up which I sent around it does show clearly show that

160

00:19:53.090 --> 00:19:54.540

Douglas "Duke" Tremittiere: that dotted line.

161

00:19:56.400 --> 00:20:00.579

Douglas "Duke" Tremittiere: Okay, alright, thank you for reminding me, Calvin, because we did talk about that already.

162

00:20:02.690 --> 00:20:11.399

Douglas "Duke" Tremittiere: and I, I feel a little more clear. And I and I think I know how to update that language now based on that? Although, are there any questions from other people on the call.

163

00:20:12.820 --> 00:20:20.080

Aprille Weron: Would it be possible, though, to have the maps updated with jh, you properties.

164

00:20:22.340 --> 00:20:24.930

Douglas "Duke" Tremittiere: I think they already are. So the one that we're looking.

165

00:20:24.930 --> 00:20:31.529

Aprille Weron: As of right as of as of right now, but if they acquire other properties in the future like, it would be.

166

00:20:33.610 --> 00:20:34.710

Douglas "Duke" Tremittiere: I think that's.

167

00:20:34.710 --> 00:20:35.100

Aprille Weron: Yes.

168

00:20:35.100 --> 00:20:41.066

Calvin Smith: I think that that's the goal. And obviously, I think that's the recommendation that you all are making.

169

00:20:41.380 --> 00:20:42.140

Aprille Weron: Yeah, yeah.

170

00:20:42.510 --> 00:21:10.989

Calvin Smith: You know what I mean. So but I think that's the goal. So I believe that folks have been kind of moving in that direction. And so they are being reviewed as we speak, to be finalized and posted. And so I think what what you all are looking at now is the frequency with which you want them updated, and then the university can respond as to whether or not that frequency makes sense.

171

00:21:12.100 --> 00:21:12.820

Aprille Weron: Correct.

172

00:21:13.770 --> 00:21:15.669

Douglas "Duke" Tremittiere: Correct. But but your point was that

173

00:21:15.880 --> 00:21:21.329

Douglas "Duke" Tremittiere: no matter how frequent it's the the Cssa defined, patrol area is not going to change. So.

174

00:21:21.330 --> 00:21:29.880

Calvin Smith: It is not changing unless a community, you know, goes through the process of soliciting Baltimore City Council

175

00:21:30.230 --> 00:21:31.780

Calvin Smith: to take a vote

176

00:21:32.040 --> 00:21:40.919

Calvin Smith: and approve that. And and a majority of the community members are in agreement with that change. That is the only way that that can happen.

177

00:21:41.340 --> 00:21:47.693

Calvin Smith: But whether or not we buy a bunch of property, sell a bunch of property, you know.

178

00:21:48.600 --> 00:21:56.240

Calvin Smith: lease a bunch of property, occupy a bunch of property. That doesn't change the boundaries of those maps

179

00:21:57.110 --> 00:21:58.839

Calvin Smith: per the Cssa.

180

00:21:59.480 --> 00:22:03.039

Douglas "Duke" Tremitiere: Okay, okay? But I do think that.

181

00:22:03.562 --> 00:22:14.290

Douglas "Duke" Tremitiere: Well, it's it's important for the students as well to understand who's their 1st responder. In which building and so on. But for the community members, they I'm sure they're going to want to understand and know this

182

00:22:17.220 --> 00:22:31.940

Douglas "Duke" Tremitiere: for a variety of reasons I mean in in the in the large, more complicated campuses, I mean, you could have a an incident or be a victim of crime in front of any building, and that building may or may not be a Jh.

183

00:22:32.180 --> 00:22:36.500

Douglas "Duke" Tremitiere: Owned or controlled property right? And

184

00:22:37.300 --> 00:22:46.189

Douglas "Duke" Tremitiere: of course there'll be overlapping jurisdictions with the Bpd. But it'd be good to know, you know, whose jurisdiction you're in when you're walking. On which sidewalk, so to speak.

185

00:22:47.823 --> 00:22:48.846

Douglas "Duke" Tremitiere: So

186

00:22:50.590 --> 00:23:02.980

Douglas "Duke" Tremitiere: so I agree. April, that. Yeah, even with an update of the buildings within and without of the jurisdiction, is kind of important within and without, within or outside of the Cssa defined jurisdiction is important.

187

00:23:03.864 --> 00:23:09.210

Douglas "Duke" Tremitiere: And like, I said, I still think it's 1 of the most common questions we get so

188

00:23:09.420 --> 00:23:10.990

Douglas "Duke" Tremitiere: like it or not. People.

189

00:23:10.990 --> 00:23:11.370

Aprille Weron: Thank you.

190

00:23:11.370 --> 00:23:16.389

Douglas "Duke" Tremittiere: About this issue, whether it's really that, important or not, or

191

00:23:16.590 --> 00:23:21.129

Douglas "Duke" Tremittiere: technical or not. People seem to ask this question as much as any I mean more than any.

192

00:23:22.029 --> 00:23:30.570

Douglas "Duke" Tremittiere: Okay, so like, as I said, I'm gonna work on updating that language already that was updated. And

193

00:23:31.445 --> 00:23:36.800

Douglas "Duke" Tremittiere: if there's no other questions on that then we'll move on any other questions on that.

194

00:23:39.640 --> 00:23:40.150

Aprille Weron: I'm good.

195

00:23:40.780 --> 00:23:42.587

Douglas "Duke" Tremittiere: Okay, great. So

196

00:23:44.858 --> 00:23:52.869

Douglas "Duke" Tremittiere: the next issue was, well, okay, and and and not only the language on that, but I will work on a draft letter for the Board.

197

00:23:53.100 --> 00:23:56.989

Douglas "Duke" Tremittiere: Once that language is updated, work on a draft letter for the Board to forward to

198

00:23:57.130 --> 00:23:59.650

Douglas "Duke" Tremittiere: to Hopkins, asking for

199

00:24:00.430 --> 00:24:06.230

Douglas "Duke" Tremittiere: a certain frequency, and, as Calvin said, they'll respond. But I'll work on that. That's a very simple task.

200

00:24:06.560 --> 00:24:06.880

Aprille Weron: Okay.

201

00:24:07.280 --> 00:24:18.080

Douglas "Duke" Tremittiere: The the other item that was being updated. And and I think the language there is pretty clear is because it's almost pulled verbatim from the finalized

202

00:24:20.180 --> 00:24:31.309

Douglas "Duke" Tremittiere: policy directives is the language on how Jhpd will react to protest demonstrations or other

203

00:24:32.038 --> 00:24:36.430

Douglas "Duke" Tremittiere: expressions of 1st amendment protected rights so.

204

00:24:36.560 --> 00:24:47.550

Douglas "Duke" Tremittiere: or for cemented protected activities. So and I and I didn't get any specific comments on that. Were there any comments anyone wanted to raise? Now, like, I said, most of that language is pulled verbatim from

205

00:24:48.260 --> 00:24:50.650

Douglas "Duke" Tremittiere: from the Jhpd policies.

206

00:24:57.270 --> 00:25:02.179

Douglas "Duke" Tremittiere: Okay, so maybe I'll just highlight a few things.

207

00:25:02.330 --> 00:25:16.252

Douglas "Duke" Tremittiere: That policy is 17 pages long, and it is extremely detailed. So if anyone is interested, it's worth going through it. I put that stuff on auto

208

00:25:17.500 --> 00:25:33.200

Douglas "Duke" Tremittiere: read aloud function. I listen to them, and I listen. Sometimes I go back and listen to paragraphs, if they're confusing, but it is detailed, extremely detailed. What and how Jhpd. Will respond. In the case of a demonstration

209

00:25:33.280 --> 00:26:01.719

Douglas "Duke" Tremittiere: or a protest, there's a lot of information, what they can and what they cannot do. But one of the most important points. That's the 1st point, I added, which is very clearly stated, is that it won't always be the Jhpd. To respond in the 1st instance, it may be the other resources of Hopkins, and that includes, for example, the non armed public safety officers. It could be even student affairs, for example, it won't always be the Jhpd. To go to

210

00:26:01.810 --> 00:26:25.319

Douglas "Duke" Tremittiere: a process in the 1st instance. Then they're very strict guidelines about how they would involve the Bpd. If they ever needed felt like they needed to involve the Bpd. How they have to give several warnings if they're going to try to move or displace or stop a demonstration if it and that would only be in the case that it crosses into trespass or other.

211

00:26:28.230 --> 00:26:31.074

Douglas "Duke" Tremittiere: I'm trying to think the language it uses.

212

00:26:35.540 --> 00:26:40.539

Douglas "Duke" Tremittiere: Not unlawful, well, unlawful is also used if it becomes an unlawful protest or demonstration

213

00:26:41.090 --> 00:26:48.649

Douglas "Duke" Tremittiere: and then, for example, the very strict guidelines about, or very strict language about what weapons, for example, they can use.

214

00:26:49.750 --> 00:26:56.857

Douglas "Duke" Tremittiere: So they're not. They're not permitted to use rubber bullets or tear gas and other

215

00:26:57.460 --> 00:27:12.250

Douglas "Duke" Tremittiere: and other particular weaponry or equipment that's under the equipment section. So if people are interested, this is the kind of thing that most people won't be interested until there's another round of major protests on campus. And then, all of a sudden, everyone's going to be interested.

216

00:27:12.660 --> 00:27:17.130

Douglas "Duke" Tremittiere: And at that stage, of course we're we on the board are all gonna be expected to be

217

00:27:17.260 --> 00:27:19.430

Douglas "Duke" Tremittiere: experts. Right? So

218

00:27:21.930 --> 00:27:26.829

Douglas "Duke" Tremittiere: let's see when if and when there's any other major round of protest, but you know how that may go.

219

00:27:27.253 --> 00:27:36.490

Douglas "Duke" Tremittiere: Any other comments or questions, because I think, as that stands that can just be added as it is. Then, if there's no other major comments, and I do think it's probably good to

220

00:27:37.410 --> 00:27:38.310

Douglas "Duke" Tremittiere: to

221

00:27:38.700 --> 00:27:46.970

Douglas "Duke" Tremittiere: post this for the rest of the members of the wider board to review if they have comments as well. But if there's any other comments before we move on.

222

00:27:52.840 --> 00:27:54.050

Douglas "Duke" Tremittiere: Okay.

223

00:27:54.400 --> 00:27:59.839

Aprille Weron: Oh, sorry, Duke. That was under like 4, 4, 86, right? It pulled up

224

00:28:00.610 --> 00:28:04.030

Aprille Weron: under the pot. Yeah. 4, 86 assemblies, demonstrations.

225

00:28:04.030 --> 00:28:04.450

Douglas "Duke" Tremittiere: Correct.

226

00:28:04.993 --> 00:28:10.966

Aprille Weron: And so I I don't know if this, if there is

227

00:28:12.740 --> 00:28:17.450

Aprille Weron: or if it even makes sense to like we talked about before, maybe having like a flow chart.

228

00:28:18.710 --> 00:28:19.110

Douglas "Duke" Tremittiere: Oh!

229

00:28:19.110 --> 00:28:21.860

Aprille Weron: The order of those things or no, or just do you think that.

230

00:28:21.860 --> 00:28:37.330

Calvin Smith: So I think what's important for you all to remember is, while with the vast majority of time, and in in the 10 years I've been at

Hopkins. 99% of the time is mostly student affairs are the 1st responders.

231

00:28:37.500 --> 00:28:39.190

Aprille Weron: To demonstration.

232

00:28:39.880 --> 00:28:55.479

Calvin Smith: A handful of times. It may be public safety. And that's typically in the case when we're talking about, these are non students who are engaging in a protest or demonstration, because student affairs is related directly to students. It is only in the

233

00:28:55.980 --> 00:28:58.190

Calvin Smith: rare circumstance

234

00:28:59.270 --> 00:29:11.720

Calvin Smith: that a a Jhpd or Bpd. Officer would be engaged. And there's the protocol that you all are describing is the thing that dictates how that process is going to go.

235

00:29:13.340 --> 00:29:17.400

Calvin Smith: So it's it's hard to write a flow chart, because if it's.

236

00:29:17.400 --> 00:29:17.880

Aprille Weron: The situation.

237

00:29:17.880 --> 00:29:21.410

Calvin Smith: That is just is way beyond the pale.

238

00:29:21.910 --> 00:29:25.689

Calvin Smith: Then it wouldn't be student affairs or public safety. It might be something else.

239

00:29:26.360 --> 00:29:26.860

Aprille Weron: Right.

240

00:29:26.860 --> 00:29:31.509

Calvin Smith: And that's true for any demonstration or protest. But and as a general rule.

241

00:29:31.850 --> 00:29:40.140

Calvin Smith: the vast majority are either going to be student student affairs or public safety, non-armed personnel.

242

00:29:41.150 --> 00:29:41.740

Aprille Weron: Yeah.

243

00:29:42.290 --> 00:29:48.719

Douglas "Duke" Tremitiere: Yeah, and that. And I that's mentioned at least 2 or 3 times in the policy itself, although they.

244

00:29:48.720 --> 00:29:49.180

Aprille Weron: Yeah.

245

00:29:49.180 --> 00:29:54.780

Douglas "Duke" Tremitiere: Term other Johns Hopkins University resources, which I understand to be student affairs or

246

00:29:55.150 --> 00:30:01.180

Douglas "Duke" Tremitiere: or unarmed public safety, or it could be something, somebody else. But they they left. They leave it very broad.

247

00:30:04.550 --> 00:30:06.219

Douglas "Duke" Tremitiere: Yeah. Yeah.

248

00:30:06.558 --> 00:30:12.321

Aprille Weron: Understand, you know, cause read through it. So someone had asked me about that earlier. But,

249

00:30:13.110 --> 00:30:15.379

Aprille Weron: If you read through it, it does.

250

00:30:15.720 --> 00:30:17.600

Aprille Weron: There are so many steps.

251

00:30:19.270 --> 00:30:19.705

Douglas "Duke" Tremitiere: Yeah.

252

00:30:20.140 --> 00:30:22.159

Aprille Weron: Before Jhpd. Would even be involved.

253

00:30:22.750 --> 00:30:27.730

Douglas "Duke" Tremitiere: Yeah, it's like, I mean, it's 17 pages. And it's long. And I think

254

00:30:28.560 --> 00:30:36.930

Douglas "Duke" Tremittiere: because of the recent protest activity on different campuses around the country. This is more highlighted than it might have been otherwise, but

255

00:30:37.960 --> 00:30:44.020

Douglas "Duke" Tremittiere: I mean those 17 pages are dense, and I do think that somehow

256

00:30:44.200 --> 00:30:55.129

Douglas "Duke" Tremittiere: providing a cheat sheet is helpful. We're already trying to do it by just break it down to those little bullets that we put in our facts. But the other thing that comes to mind is that I'm wondering how

257

00:30:55.290 --> 00:31:00.899

Douglas "Duke" Tremittiere: this is going to be taught to the Jhpd officers, because.

258

00:31:01.640 --> 00:31:20.370

Douglas "Duke" Tremittiere: like the curriculum also is going to have to break it down right and and explain it, and maybe there'll be a flow chart in that in that instance. But the problem, I think with the flow chart is, it would just maybe make people more confused than necessary, because there's so many different possibilities. And if this happens, then that happens, and if it becomes

259

00:31:20.530 --> 00:31:27.239

Douglas "Duke" Tremittiere: Xyz, then the Bpd and then you have to contact the chief of police before you can do this and you have to. It's it's

260

00:31:27.240 --> 00:31:29.419

Douglas "Duke" Tremittiere: yeah, very detailed. And I.

261

00:31:29.770 --> 00:31:35.002

Calvin Smith: It it is, and and what I would say to you all is, as you all know,

262

00:31:35.430 --> 00:31:40.309

Calvin Smith: very soon the gap training which addresses these issues that you're talking about.

263

00:31:40.480 --> 00:31:40.760

Calvin Smith: Hmm!

264

00:31:41.040 --> 00:31:43.859

Calvin Smith: You all are gonna be able to weigh in on those trainings.

265

00:31:44.875 --> 00:31:54.000

Calvin Smith: To make sure that they make sense, and that they're clear. That is a part of the mandate that you all have as an accountability board. So

266

00:31:54.390 --> 00:32:02.979

Calvin Smith: you all will be able to see and weigh in on what that language looks like? Is it resonating with you all? Does it make sense for

267

00:32:03.150 --> 00:32:13.640

Calvin Smith: like as someone who's not doing this work? Would you be able to understand how they should respond and operate in that space? So that is what's coming

268

00:32:13.890 --> 00:32:20.840

Calvin Smith: shortly with regard to your work? In the upcoming term.

269

00:32:23.036 --> 00:32:30.480

Douglas "Duke" Tremittiere: Okay, yeah, that was my kind of thought is, I think that if the train is coming up there may be somebody who wants somebody from

270

00:32:31.070 --> 00:32:39.000

Douglas "Duke" Tremittiere: from the Board Training Committee folks who want to be somehow involved, and review that carefully, or even go through the training.

271

00:32:39.140 --> 00:32:39.970

Douglas "Duke" Tremittiere: But

272

00:32:41.990 --> 00:32:52.320

Douglas "Duke" Tremittiere: like, I said I. I tend to think that you know this is very back burner, unless there's another series of of serious demonstrations. And all of a sudden. It's going to become, you know.

273

00:32:53.180 --> 00:32:53.730

Douglas "Duke" Tremittiere: like.

274

00:32:53.730 --> 00:32:57.289

Aprille Weron: Yeah, and it's just not the kind of question I'm sorry, Duke.

275

00:32:57.290 --> 00:32:57.819

Douglas "Duke" Tremittiere: You did.

276

00:32:57.820 --> 00:33:02.720

Aprille Weron: It's not the kind. Yeah, no, no, I said, I'm sorry. It's just also not the kind of question that you can answer.

277

00:33:03.030 --> 00:33:05.679

Aprille Weron: and a quick one to 2 sentence.

278

00:33:07.350 --> 00:33:15.000

Douglas "Duke" Tremittiere: Yeah, I agree. But that's why the facts only gives the highlights and then points people to the actual directive. If they're interested in the link. That's, I think.

279

00:33:15.270 --> 00:33:20.369

Douglas "Duke" Tremittiere: at a minimum what we should do. And that's probably as good as we can do under circumstances.

280

00:33:21.350 --> 00:33:24.150

Douglas "Duke" Tremittiere: So any other comment on that point.

281

00:33:27.460 --> 00:33:32.479

Douglas "Duke" Tremittiere: Okay, thank you. So the the last thing about the updates to the fax is

282

00:33:34.120 --> 00:33:39.330

Douglas "Duke" Tremittiere: how and where to eventually publish these, because they've been floating around for us now.

283

00:33:39.610 --> 00:33:54.659

Douglas "Duke" Tremittiere: But we haven't published them up online. So if you go online and I, I suggest, everybody does. That takes the time to do it is to look for the facts. Faqs. So you have the public Safety, Faqs. Which are pretty detailed in some cases.

284

00:33:55.040 --> 00:34:04.960

Douglas "Duke" Tremittiere: But these Faqs are looking specifically at those questions that have been asked to the pab in our

285

00:34:05.605 --> 00:34:11.060

Douglas "Duke" Tremitiere: Outreach meetings. So it's slightly different than the generalized Faqs that

286

00:34:11.520 --> 00:34:21.379

Douglas "Duke" Tremitiere: public safety has just put out about. Okay, you know, what is the cssa? This is more specifically those questions that were asked to the pab. So

287

00:34:21.500 --> 00:34:29.409

Douglas "Duke" Tremitiere: I think it's worth us rethinking about where we're going to publish these, where on the where, on the where, on the website.

288

00:34:29.679 --> 00:34:34.220

Douglas "Duke" Tremitiere: these things should appear, or maybe they should appear in several places. Because.

289

00:34:35.230 --> 00:34:41.010

Douglas "Duke" Tremitiere: okay, if you guys follow my train of thought, I mean, people need to find them, and I think when they find them, it should be.

290

00:34:41.370 --> 00:34:44.779

Douglas "Duke" Tremitiere: find they should find them in the context of the pab.

291

00:34:47.090 --> 00:34:49.210

Douglas "Duke" Tremitiere: I'll just open that up if anyone has a comment.

292

00:34:51.429 --> 00:34:55.562

Aprille Weron: Yeah. I was just thinking, maybe we could all look at the

293

00:34:56.219 --> 00:35:00.359

Aprille Weron: the the public Safety's website and make suggestions from there.

294

00:35:01.410 --> 00:35:06.340

Douglas "Duke" Tremitiere: Okay, and I.

295

00:35:06.990 --> 00:35:17.939

Douglas "Duke" Tremittiere: It also occurred to me and I and I discussed this with a couple of you. I don't know if we have we meaning the pab, if we have a clear enough

296

00:35:18.100 --> 00:35:20.060

Douglas "Duke" Tremittiere: website presence.

297

00:35:20.890 --> 00:35:30.050

Douglas "Duke" Tremittiere: So is, you know, a link that goes directly to our page with our work and what we're doing. And that would be a logical place to put this. And I,

298

00:35:30.850 --> 00:35:35.099

Douglas "Duke" Tremittiere: we're like, we're like 3 clicks down from public safety right.

299

00:35:37.170 --> 00:35:37.600

Aprille Weron: Yeah.

300

00:35:37.600 --> 00:35:40.570

Douglas "Duke" Tremittiere: If you guys understand my point and I don't know

301

00:35:41.270 --> 00:35:46.219

Douglas "Duke" Tremittiere: I don't have a webmaster kind of background. But I wonder if we shouldn't be more

302

00:35:47.230 --> 00:35:50.349

Douglas "Duke" Tremittiere: up front and center, although okay, you know, this is

303

00:35:50.480 --> 00:35:55.280

Douglas "Duke" Tremittiere: in to some extent. Sometimes you can qualify these things as be careful what you ask for right.

304

00:35:56.470 --> 00:35:59.250

Aprille Weron: Yeah, cause. That's another thing we have to maintain as.

305

00:36:00.170 --> 00:36:15.090

Laura Rossi: So can I. I just wanna throw something out, maybe for a thought like and, Calvin, this might be something that you might need to respond to. But so what? What my thought processes with the Fags is like?

306

00:36:15.150 --> 00:36:32.539

Laura Rossi: It's for it's information for the community, right to access specifically about questions that they have for the Jhpd. So where would they easily find it? And if there's already like an FAQ that currently exists

307

00:36:33.030 --> 00:36:36.339

Laura Rossi: right? Wouldn't or couldn't we

308

00:36:39.380 --> 00:36:51.320

Laura Rossi: basically incorporate the additional questions that we're getting from the community into what currently exists on the FAQ, that's posted. Just update it.

309

00:36:51.640 --> 00:37:02.700

Laura Rossi: And then maybe what we could do is we could identify if we feel like we need to the questions that came from the community right? And then the

310

00:37:03.060 --> 00:37:15.030

Laura Rossi: Jhpd would, or legal. Someone would have to vet the responses that are provided to ensure that they're accurate.

311

00:37:15.800 --> 00:37:17.840

Calvin Smith: That is how that would go.

312

00:37:21.070 --> 00:37:21.670

Aprille Weron: Okay.

313

00:37:22.160 --> 00:37:31.140

Douglas "Duke" Tremitiere: Okay, I I'm following, because because the the the only issue that

314

00:37:31.420 --> 00:37:33.979

Douglas "Duke" Tremitiere: that arose in my mind was that

315

00:37:34.480 --> 00:37:40.349

Douglas "Duke" Tremitiere: on the website, now you have the facts, and they are organized thematically.

316

00:37:40.950 --> 00:37:52.070

Douglas "Duke" Tremitiere: So okay, how was the Jhpd formed? What? Who manages the Hpt? But where where were the Ghp patrol? How were the Jhp. Be deployed.

317

00:37:52.610 --> 00:37:59.070

Douglas "Duke" Tremittiere: The thing is that our community facts cross all of those issues

318

00:37:59.290 --> 00:38:16.189

Douglas "Duke" Tremittiere: in 2 pages. We're dealing with all of those different themes with the latest, you know. Fags. Because some of the Fags are, you know, they're they're they're quite old, like, you know. The whole process of the Cssa. For example, that's several years old. These are the more recent questions. So

319

00:38:16.790 --> 00:38:31.849

Douglas "Duke" Tremittiere: I understand what Laura's saying, because then, if we break these facts apart and put them into those thematic areas. We could highlight it somehow a question from the community and then say, this is the question. This is the answer. Is that what you're saying, Laura. I think.

320

00:38:32.240 --> 00:38:35.940

Laura Rossi: Yeah, if we feel like it's it's necessary to differentiate. Sure.

321

00:38:36.440 --> 00:38:48.360

Douglas "Duke" Tremittiere: Yeah, if we feel it. I that's once the facts are better like finalized, I think. But I just think that it's worth now already to think about where they're going to be posted. So if you have easy access, because that's the point.

322

00:38:48.360 --> 00:38:49.480

Laura Rossi: Absolutely. Yep.

323

00:38:50.600 --> 00:39:03.160

Douglas "Duke" Tremittiere: And then, if we ever have an event, we could always pull those specific questions from the community and and give those out right. Just pull from those vetted ones that are already online, pull the ones that are most useful.

324

00:39:03.160 --> 00:39:03.510

Aprille Weron: Yeah.

325

00:39:03.510 --> 00:39:05.219

Laura Rossi: Yup, yeah. Exactly.

326

00:39:05.220 --> 00:39:14.368

Douglas "Duke" Tremittiere: Yeah, yeah. And then and then hand out that one or 2 sheet page that we that we think about handing. Okay, that makes sense. Okay, thank you for that, Laura. That's that's helpful. Sure.

327

00:39:15.080 --> 00:39:15.980

Douglas "Duke" Tremittiere: okay,

328

00:39:17.390 --> 00:39:22.770

Douglas "Duke" Tremittiere: moving on. I just wanted to open up. There's anything else that folks wanted to discuss in terms of policy

329

00:39:23.865 --> 00:39:29.010

Douglas "Duke" Tremittiere: issues. Because I I do want to talk a little bit about handover. But that's kind of very

330

00:39:30.420 --> 00:39:31.650

Douglas "Duke" Tremittiere: administrator.

331

00:39:32.010 --> 00:39:35.560

Douglas "Duke" Tremittiere: Any other general policy issues that anyone wants to raise at this time. I guess.

332

00:39:39.180 --> 00:39:40.280

Aprille Weron: Not for me.

333

00:39:40.920 --> 00:39:48.020

Douglas "Duke" Tremittiere: Okay, thanks, folks. So as I said at the beginning of the meeting. This is my last

334

00:39:48.150 --> 00:39:56.540

Douglas "Duke" Tremittiere: policy committee meeting as chair and as Deputy Chair, Dr. Madhu will also be stepping down from the board in the coming months.

335

00:39:56.710 --> 00:40:10.989

Douglas "Duke" Tremittiere: So it's just a bit of housekeeping. Obviously, in the summer months folks are going to have to discuss and nominate a new chair. In the meantime, of course, I have a lot of paper records.

336

00:40:11.350 --> 00:40:13.819

Douglas "Duke" Tremittiere: documents, you know

337

00:40:14.000 --> 00:40:29.736

Douglas "Duke" Tremittiere: all of this fact stuff and and and the and the and our comments on the policies, and in word, or in Ph, and and and pdf, so I just want to hand over all of that material to someone.

338

00:40:30.250 --> 00:40:38.990

Douglas "Duke" Tremittiere: April's an obvious choice. But if there's someone else who wants to be the the kind of caretaker, and then that would obviously be handed over to the new chair. For example.

339

00:40:40.700 --> 00:40:52.750

Douglas "Duke" Tremittiere: Obviously, I can upload stuff onto the onto the share drive as well, but I would feel better also, forwarding it all to somebody that has it in hard copy somewhere, or they're in their own drive somewhere.

340

00:40:58.740 --> 00:41:03.586

Aprille Weron: I mean, I'm I'm more than happy to to take the hard copy of things.

341

00:41:03.910 --> 00:41:17.360

Douglas "Duke" Tremittiere: Okay, yeah, that's fine. That's fine. So that yeah, and that that's also very logical. Because then when the new chair comes on board, you can forward them all the background, information and any handover kind of note or material that I would have.

342

00:41:19.350 --> 00:41:20.345

Douglas "Duke" Tremittiere: And

343

00:41:22.100 --> 00:41:34.170

Douglas "Duke" Tremittiere: That was the other major thing I wanted to mention other than to thank everybody for the work on the committee over the last 2 years. It doesn't seem like it's been 2 years. I can't believe it.

344

00:41:34.350 --> 00:41:35.160

Douglas "Duke" Tremittiere: And

345

00:41:36.360 --> 00:41:42.100

Douglas "Duke" Tremittiere: And then to wish everybody well moving forward. I don't know if there's anything else that anyone feel like they should raise at the moment.

346

00:41:44.334 --> 00:41:51.440

Aprille Weron: If everyone else will indulge me. This is April. I just wanted to say Thank you

347

00:41:51.940 --> 00:41:57.944

Aprille Weron: times a million. I have no idea how you went through all of these policies

348

00:41:59.200 --> 00:42:08.170

Aprille Weron: the way you did, and has thoroughly as you did, and I don't. I don't know if that's really appreciated. How much work you really put in before

349

00:42:08.420 --> 00:42:11.390

Aprille Weron: of, you know, anyone was even

350

00:42:14.210 --> 00:42:28.019

Aprille Weron: looking at them as as deep, deeply and thoughtfully as as as the policy Committee did, especially under your leadership as well with Dr. Madhu. And I. I just hope you know that it's really appreciated, and we're going to miss you, and we're very

351

00:42:28.150 --> 00:42:31.420

Aprille Weron: grateful for your work. So thank you again.

352

00:42:33.210 --> 00:42:37.989

Douglas "Duke" Tremittiere: Thank you so much. I appreciate that. Dr. Madhu, are you online? Is there anything you want to add.

353

00:42:37.990 --> 00:42:41.310

Madhu Subramanian: Yeah, no, I I just think that. You know, it's kind of amazing how much

354

00:42:41.490 --> 00:42:44.319

Madhu Subramanian: progress we've made in the last 2 years, and how much

355

00:42:44.660 --> 00:43:07.800

Madhu Subramanian: you know I've learned through the whole policy process and and just communicating with all of you and trying to better understand and represent our communities. I think we've made huge strides and hopefully, other members of the community will see that we're trying to do things in their best interest, and that we're interested in their opinions, and you know our goal is to make things as safe as possible for them.

356

00:43:10.220 --> 00:43:11.100
Douglas "Duke" Tremitiere: Yeah, so I agree.

357
00:43:11.100 --> 00:43:11.540
Aprille Weron: Okay.

358
00:43:11.540 --> 00:43:12.790
Douglas "Duke" Tremitiere: 100%. Yeah.

359
00:43:12.790 --> 00:43:30.390
Jerrell Bratcher: Yeah, I echo those sentiments. You you all have done a yeoman's work, especially the policy. That review, you know, getting it to where it is for this second iteration of the board, like that is a yeoman's work, a labor of love

360
00:43:30.600 --> 00:43:35.139
Jerrell Bratcher: that you all, you know, encumbered. And so I I appreciate

361
00:43:35.300 --> 00:43:40.850
Jerrell Bratcher: each of you Duke, and you know, Dr. Madhu, wholeheartedly.

362
00:43:45.130 --> 00:43:51.309
Douglas "Duke" Tremitiere: Thank you, Jerome, ditto and back at you, because I know you're you on. Your committee is doing a great, great service, too.

363
00:43:51.750 --> 00:43:53.209
Douglas "Duke" Tremitiere: Laura. You're the only one that's in China.

364
00:43:53.210 --> 00:43:55.250
Jerrell Bratcher: Yeah, I only have pom-poms, though.

365
00:43:56.690 --> 00:43:58.450
Douglas "Duke" Tremitiere: Mr. Phone phones? Yes.

366
00:44:02.000 --> 00:44:03.466
Laura Rossi: Sorry. So,

367
00:44:04.390 --> 00:44:09.496
Laura Rossi: so yeah, so I I just wanted to echo exactly the same thing. Thank you so much. I

368

00:44:10.060 --> 00:44:27.429

Laura Rossi: A lot of this work was done way before, you know, I came on on into the group. So thank you so much, and I'm sure that we'll find folks hopefully. That will keep this momentum going so. But thank you so much for

369

00:44:27.540 --> 00:44:30.269

Laura Rossi: for doing what you've done the past 2 years.

370

00:44:32.940 --> 00:44:37.636

Douglas "Duke" Tremittiere: Thank you. Ditto back to you. I appreciate all of your your efforts very much so.

371

00:44:38.100 --> 00:44:46.840

Douglas "Duke" Tremittiere: As I like to say. You know this police force is coming, and my goal is to try to make sure that it's as professional and as community responsive as possible.

372

00:44:47.050 --> 00:44:52.979

Douglas "Duke" Tremittiere: not least of all because they, as people know, they just bought the building behind my bedroom window. So

373

00:44:53.430 --> 00:44:57.376

Douglas "Duke" Tremittiere: I will potentially be policed by the

374

00:44:58.280 --> 00:45:03.005

Douglas "Duke" Tremittiere: so which I'm which I'm actually

375

00:45:04.380 --> 00:45:17.150

Douglas "Duke" Tremittiere: I wouldn't say happy or upset about, but I'm or either way I'm neutral about it. But I do think we need policing, and the Bpd is not very present, so I'm for that reason I'm I'm content with the with the current situation.

376

00:45:18.055 --> 00:45:27.069

Douglas "Duke" Tremittiere: So just one other housekeeping item, if if you allow me? I spoke to Amy this week. Amy sent out an email

377

00:45:27.270 --> 00:45:28.599

Douglas "Duke" Tremittiere: a week ago.

378

00:45:29.300 --> 00:45:33.219

Douglas "Duke" Tremittiere: It's the invitation to the orientation next month

379

00:45:33.670 --> 00:45:41.869

Douglas "Duke" Tremittiere: for the new Board members. It was also sent to people leaving the board. By the way, Dr. Madhu, in case you you want to attend, I think

380

00:45:42.420 --> 00:46:01.929

Douglas "Duke" Tremittiere: it's recognized that there may be some. Some used to having the Outgoing board members there while the new board members are coming in. But there's a survey link inside that email. And Amy's asking everyone to fill in that survey. So she gets the updated information that she needs to do the planning for the event and events quickly coming up.

381

00:46:02.990 --> 00:46:10.280

Douglas "Duke" Tremittiere: So if you speak to anyone else on the board, maybe remind them. Also, she she had only heard from, I think, 3 or 4 people, and that's

382

00:46:10.460 --> 00:46:12.860

Douglas "Duke" Tremittiere: not even close to being the the correct number.

383

00:46:14.074 --> 00:46:18.789

Douglas "Duke" Tremittiere: Okay, if there's nothing else, then I'll just adjourn the meeting anything else before we adjourn.

384

00:46:19.620 --> 00:46:22.929

Calvin Smith: Yes, Duke, in my Duke.

385

00:46:23.388 --> 00:46:28.810

Calvin Smith: On behalf of Johns Hopkins University Public Safety. We also want to thank you for your service.

386

00:46:29.170 --> 00:46:49.289

Calvin Smith: So we know that you all have done a great job and been great board members. And so we want to thank you as well. While this is your last meeting. We know this is not the last time we will be in relationship, and so good luck to the rest of your endeavors, and and thank you for all the things that you've done. For the board for the last 2 years.

387

00:46:50.280 --> 00:46:51.450

Calvin Smith: Next week.

388

00:46:54.120 --> 00:46:56.517

Douglas "Duke" Tremittiere: Yeah, thank you very much. So if

389

00:46:57.000 --> 00:47:05.609

Douglas "Duke" Tremittiere: if and and I I know I know I speak for Dr. Madhu. If there's ever any reason that you folks want to get a hold of us, you should always feel free to do that.

390

00:47:06.460 --> 00:47:17.360

Douglas "Duke" Tremittiere: So if there's nothing else, I will join the meeting, and thank you all for your kind attendance and your participation. It always, of course, means a lot to me, but I know it means a lot to the communities that we're serving.

391

00:47:17.850 --> 00:47:18.959

Douglas "Duke" Tremittiere: Thank you again.

392

00:47:20.350 --> 00:47:21.230

Laura Rossi: Thanks, so much, Duke.

393

00:47:22.010 --> 00:47:24.439

Aprille Weron: Thank you. Have a good night.

394

00:47:24.440 --> 00:47:25.330

Douglas "Duke" Tremittiere: Good night.
